

# Product Additional Fee

- 1) We need a setting to enable or disable this. This setting should be placed in **Settings -> Sales** under **Product Catalog**.

- 2) Once this setting is enabled it should add to the Product Category form. Also it should add to the Product form under **General Information**. For the Product Form, there should be two checkboxes. One to Override the PRODUCT CATEGORY SETTING and another to activate the product fee.

## Mockup – Product Form

### Mockup: Product Category Form

The mockup shows a 'Product Category' form. At the top right, there is a 'Products' header with a grid icon and the number '1'. The form includes several input fields: 'Category' (containing 'COCA-COLA 12PK'), 'Parent Category' (containing 'SODA / COCA-COLA'), and 'Sync with POS Category' (with an unchecked checkbox). Below these are two sections: 'LOGISTICS' and 'INVENTORY VALUATION'. The 'LOGISTICS' section has a 'Force Removal Strategy' field. The 'INVENTORY VALUATION' section has 'Costing Method' (set to 'Standard Price') and 'Inventory Valuation' (set to 'Manual'). A red box highlights a section titled 'Product Additional Fee' which contains a checkbox labeled 'Product Fee'.

- 3) Once the setting is enabled, it should show an additional list view to add a product (which will be created for the fee),ask for the sales price of the fee, and quantity. See mockup below.

### Mockup: Product Form

The mockup shows a 'Product Form' for 'COCA-COLA 2L'. At the top, there is a breadcrumb 'Products / COCA-COLA 2L' and a 'Create' button. Below the breadcrumb are buttons for 'PRINT LABELS', 'UPDATE QUANTITY', and 'REPLENISH'. The main form area has a header with various status indicators: 'Extra Prices', '0.00 On Hand', '0.00 Forecasted', '-13.00 On Hand', '-13.00 Forecasted', 'In: 0 Out: 17', and 'Reordering R...'. The 'Product Name' field contains 'COCA-COLA 2L' and there is a small image of a Coca-Cola bottle. Below the name are checkboxes for 'Is Bundled', 'Can be Sold', and 'Can be Purchased'. The form is divided into several tabs: 'General Information', 'Attributes & Variants', 'Sales', 'Suggestion', 'Purchase', 'Inventory', 'Accounting', and 'Barcodes'. The 'General Information' tab is active. It contains fields for 'Product Type' (Storable Product), 'Invoicing Policy' (Ordered quantities), 'Unit of Measure' (fl oz (US)), 'Sales Price' (\$ 2.49), 'Customer Taxes' (Tax 8.875%), 'Alternative Products' (Bottle Deposit), 'Cost' (\$ 0.00 per fl oz (US)), 'Product Category' (SODA / COCA-COLA / COCA-COLA 2L), 'Multiples of Quantity', 'Quantity in Bags' (0.00), 'Internal Reference', 'Tags', 'Barcode' (049000050103), 'Minimum of Quantity (POS)', 'Allocate Sale Person', and 'Product Tags'. A red box highlights a section titled 'Override' which contains a table for 'Product fee'. The table has columns for 'Product Fee', 'Price', and 'Quantity'. The first row shows 'Bottle Deposit' with a price of '2.00' and a quantity of '1'.

## Mockup: Product Category Form

 1 Products

Category ?  
COCA-COLA 12PK

Parent Category ? SODA / COCA-COLA

Sync with POS Category ?

LOGISTICS

Force Removal Strategy ?

INVENTORY VALUATION

Costing Method ? Standard Price

Inventory Valuation ? Manual

**Product Additional Fee**

Product Fee

Product Fee	Price	Quantity	
Bottle Deposit	2.00	1	

### Requirements:

- 1) When this setting is enabled If the item is entered in at the Point Of Sale, Quotation/Sales Order, or Invoice/Credit memo. This product fee should also be included. Mockup below for reference.
- 2) For Point of Sale Module – The SALES DETAIL report should include the product fees separately.
- 3) PRODUCT CATEGORY Setting should apply to ALL items under that Category. However, if the product setting is enabled and the fee is changed, this should override the PRODUCT CATEGORY setting. User will need to apply the OVERRIDE button on the product page and then enable the fee by pressing the PRODUCT FEE checkbox.

**Mock Up - Point of Sale – Example: When Coca Cola is scanned it automatically added the Bottle Deposit product and fee is showing at the bottom. This fee should be added as a part of the Total.**
