

INTIME BIOTECH CORP.

**Digitize Me
To Live 120+.
InTime**

“If at the age of 27 Steve Jobs had known that he would die at 56, he would have lived until 76+”

SOCIETAL PROBLEM

- Of extending humans longevity. Interest in longevity traditionally has been from wealthy people who occupy leading positions in society.
- ! Lack of accurate early stage diagnosis solutions, which affect the longevity

BUSINESS SOLUTION

We make early stage online diagnosis by 300+ parameters to find & fight the diseases on the not known earliest stages.

Array of mobile devices that takes online bio-data with 300+ parameters from the human body in a moment, draws with AI life expectancy of a person & gives personal recommendations, based on Big Data, how to extend his life.

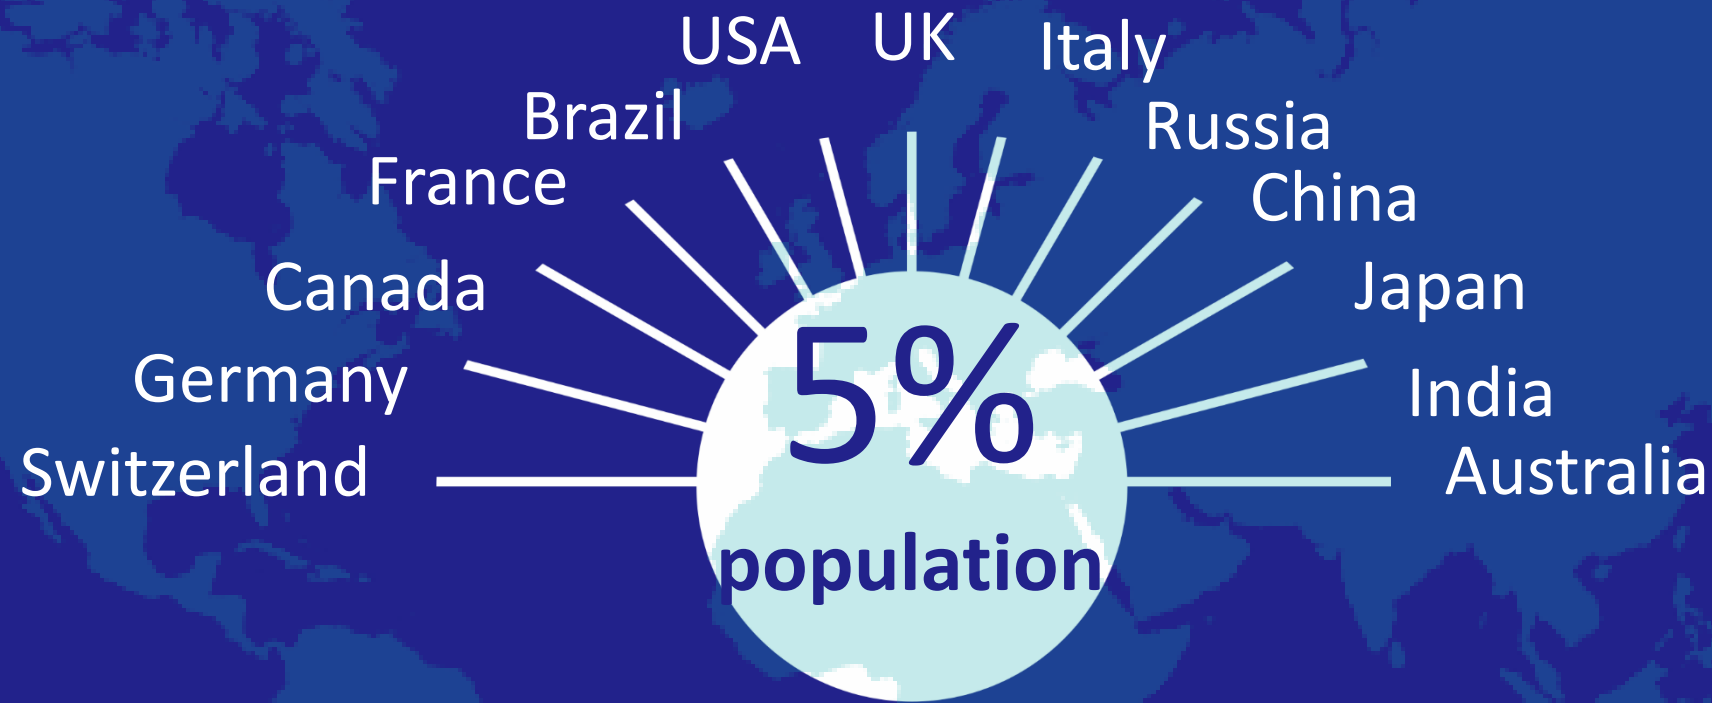

Our goal is to increase the life expectancy of an average person on 20+ years.

PRODUCT CONSISTS OF 5 FEATURES

1. Subject of wearable gadget, collecting online biodata
2. "FLASHka" USB container, taking blood & urine for full specter analysis
3. Algorithm, collects data from user's behavioral and environmental apps
4. Server issues a forecast of life expectancy & recommendations for its extension
5. Mobile App with online display of the changing parameters of a person

MARKET OPPORTUNITY

B2C market before 2023 - 42.2M millionaires
from 2023 - mass market, 5% of each population

B2B2C market – by TOP 50 Big Pharma & Insurance Companies

MARKET OPPORTUNITY

2018
year

\$270B

Longevity market growth

+60% annually

There is no data on the digitization biodata market. This is the new market.

Our TAM is, pessimistically, 1% of the whole longevity market.

2025
year

\$600B

BUSINESS MODEL

1 App Installation & Subscription sales

Before 2023 Client's one-time
Installation fee: \$200K +
Subscription fee \$100K per year

2 Pharma & Insurance Companies contracts

Currently **2** players in the
human's digitization market

InTime

IcarbonX

share of the
market

25% \$675M in 2020
25% \$1,5B in 2025

We plan to digitize 1% of
millionaires with \$50M fortune
each – 1,5K clients

Contracts with Pharma &
Insurance companies based on
individual pricing

COMPETITION

Our advantage - we do data collection, analysis, life expectancy prediction & recommendations for longer life. IT giants do only data collection. ICarbonX does a lot in the laboratories, not online, we are mostly online and do some data collection with portable devices. The rest go their own way to find their own longevity solution.
